Actual resolution: 3840 x 2160p

Except 65CQE1

98CQE1 only

Operation

01 | 4K High Picture Quality

The CQE1 Series supports 4K/60p signals, and displays clear images in meeting rooms and stores. The wide-viewing angle IPS panels of the CQE1 Series provide dynamic eye catching effects, and it is available in seven sizes that you can select according to the installation space.

02 | Superb Flexibility & Reliability

The CQE1 Series supports a wide range of locations and store information display systems that do not require 24-hour continuous operation, such as schools and companies. It also supports HTML-5, so you can display websites and update signage without a Set-top-Box.

03 | Wide Expandability

In addition to HDMI-CEC, which can be controlled by a single remote control, the CQE1 Series can be controlled by LAN or RS-232C, which are required for business use. It is also compatible with Crestron Connected™, which can replace the existing system.

Standard equipped with an abundance of terminals. Optimal as a conference monitor.

The CQE1 Series is equipped with four HDMI input terminals, USB Type-A and Type-C. It is also equipped with Wi-Fi, and can conduct wireless transmission with a PC. Display Internet-based information and smoothly alternate presenters during a meeting.

Display high-definition content down to the smallest details

IPS panels* with very little change in color even when viewing high-definition 4K images from angled places have been used. Accurately transmit information to people passing by. Complex diagrams and textures of materials are faithfully displayed, so you can easily display high quality content.

*Except for TH-65CQE1.

The stylish design matches installation spaces

Available in seven sizes from 43-98 inches. Select the right size according to the space, such as a store section or boardroom. The stylish design matches a wide range of interiors.
